

CMSI 4072 Project Status Sheet

Name: Erin Hurlburt, Anna Garren

Project: FlickPick

Accomplishments since last report:

Accomplishment 1: Create separate landing page and search results page

Accomplishment 2: Make menu bar component

Accomplishment 3: CSS updates, cleaned up site

Scheduled tasks to be done by next report:

Task 1: Search filtering functionality

Task 2: Start working on movie of the day component

Task 3: Restructure CSS, make pages more "pretty"

Noteworthy risks, concerns, or problems:

Concern: search filter functionality - Making sure all filters we want are accurately applied could get confusing so making sure that stays clear

Concern: using information from user questionnaire - need to figure out how to store information from questionnaire and personalize recommendations for each separate user based on preferences (still haven't addressed this concern)
